What is Veteran's Aid & Attendance?

In 1952, Congress passed Title 38 of the United States Code, authorizing certain benefits for veterans. One of these benefits is the Non-Service Connected Pension, with "Aid and Attendance." It is also known as simply "Aid and Attendance" or "Veterans Aid and Attendance benefit" or "Aid and Attendance Pension" or "Improved Pension with Aid and Attendance."

In March 1989, during President George H. W. Bush's presidency, the Veterans Administration (VA) was elevated to a cabinet-level executive department. The Veterans Administration was then renamed the Department of Veterans Affairs and continued to be known as VA.

Even though the pension has been around for more than 60 years, very few people know about it or understand how it works.

You may be eligible for the "Aid and Attendance" benefit. If you would like to use your VA Aid and Attendance funds primarily for home care call us for more information or to see if you qualify visit
